General provisions of social package

This social package is designed to further development of social protection and improve the standard of living of citizens of the Republic of Kazakhstan, for full-time students.

The social package serves to implement the following tasks:

- 1 improvement of the social conditions of students
- 2 promotion of healthy lifestyles and the organization of cultural leisure of students
- 3 stimulating the participation of students in academic, research, sports and social life

Social support can qualify students only with high performance and not having disciplinary action. In the case of the imposition of disciplinary sanctions during the school year on the proposal of the dean of the faculty, the student loses social support for the current academic year.

To receive social support, the student must submit to the dean's office of the faculty a full package of documents specified in section 5 of this social package. Not complete package of documents will not be accepted.

The deans of the faculties on the basis of the documents prepare a draft order on the assignment of social support to the student within three working days, and agree with the Vice-Rector on educational and social work.

Social support is assigned to the period remaining until the end of the year from the first of the day following the submission to the dean's office of a full package of documents confirming his social status. The exception is the first half of September: if the documents are submitted to the dean of the faculty before September 20, social support is appointed from September 1.

A student who has a GPA indicator of less than 3.0 loses social support during the academic year at the end of the examination session.

The student has the right to use only one item of the social package, with the exception of bonuses paid in accordance with section 3.
