

1. GENERAL PROVISIONS

The regulation on the social package has been developed for the further development and improvement of social protection and the enhancement of the living standards of citizens of the Republic of Kazakhstan – students enrolled in **full-time education**.

The social package serves to achieve the following objectives:

1. Improving the social conditions of students;
2. Promoting a healthy lifestyle and organizing cultural leisure activities for students;
3. Stimulating students' participation in academic, research, sports, and social activities.

Conditions for providing social support to students:

Students with high academic performance and no disciplinary sanctions are eligible for social support. If disciplinary sanctions are imposed during the academic year, after the results are summarized by the dean of the school, the student will lose eligibility for social support for the entire current academic year.

To receive social support, students must submit a complete set of documents to the school's dean's office, as specified in **Section 5** of these regulations. Incomplete document submissions will not be accepted or considered.

The deans' offices will prepare a draft order for the appointment of social support within three working days based on the submitted documents.

Social support is granted for the period remaining until the end of the academic year (until June 30), starting from the first day of the following month after the student has submitted a complete set of documents confirming their social status to the dean's office. Documents must be submitted to the faculty dean's office by October 1, and social support will be granted from September 1.

A student with a **GPA of less than 3.0** at the end of the midterm exam session will lose their social support for the academic year.

A student is entitled to use only one item of the Social Package, except for the bonuses paid according to Section 3, "Encouragement of Students."
